Coming from west end of Burnt House Lane;

As you climb the hill under the trees, you see this track on the left, NOT this one, it's the one further on, just as the road starts to bend right and level off.

This is our track, just before the houses. Look for the oak tree on the verge. Go down the track, park in the car-park and HQ is the brick building on the left, Ann's Lodge is the wooden one of the right.

Coming from east end of Burnt House Lane;

Enter Burnt House Lane from Burley Road and after a few hundred metres you see the turning into Stibbs Way on your left. If you look at the photo (left), our track is where the silver car in the centre is, immediately after the line of houses on your right.

This photo (left) shows the entrance to the track. Note the yellow sign above in the trees and the metal five bar gate. Don't go past because there is another gate to the hall next door. Go down the track, park in the car-park and HQ is the brick building on the left, Ann's Lodge is the wooden one of the right.
